

Faith of Our Fathers

The hymns for this themed song service were chosen from among the songs that were sung often here at TR by our fathers and grandfathers in the 1960s and 1970s. They represent the Bible principles they considered vital to their faith. We would do well to reflect on the things they taught us in song so many years ago. It was our joy to worship God under such song leaders as Denzil and Bart Wharton, Alvin Nuzum, Carl Parsons, Bobby Willison, Albert Norman, and others. These are the men I remember from my youth who sang the songs listed below that had a profound influence on my faith. You are the song leaders choosing songs that are teaching faith to the children and teens presently in this assembly. You will be remembered forty years from now as having helped shape their faith. God bless you in this work. (Paul R. Blake)
